

Welcome to Task 2...!! The aim of this task is to get familiar with Proteus Simulation software and work on different circuits.

- Download the task material from Google Classroom and extract the folder. Every time, it is better option to extract the zipped folder before working on it.
- Do find the following files within **Task\_2 folder** that contains this **Read Me** file.
  - First file is **Task\_2\_Problem\_Statement.pdf**
    - This file contains problem statements related to the task.
  - Second file is **Task\_2\_Simulation.zip**
    - This file contains Proteus Simulation for **Task\_2**.
  - Third file is **Task\_2\_Expected\_Output.mp4**
    - This media file contains the expected output that you will get on simulation.
  - Fourth file is **Task\_2\_Submission\_Instructions.pdf**
    - This file contains the submission instructions related to **Task\_2**.

!!...Happy Learning...!!
