PROGRAMMING INSTRUCTIONS

❖ It is compulsory to fill the details in the comments of all the assignment above the code.

❖ You can declare as many variable as you want.

❖ Every line in the program should have a separate comment except the repeated section/lines in the code.

❖ At the end of the code stepwise run of the code should be a briefly explained, as how actually the code is working.

❖ You are not allowed to modify any content of the file other than what is asked to do.

❖ During evaluation, any other modifications to your file will not be considered and will result in the deduction.

SUBMISSION INSTRUCTIONS

After successful completion of all the assignments submit your code for Task given. Submit the assignment according to following instructions:

File Name:

❖ File name should be
<TasknNo>#<Team_name>#<Your_name_with_initial_of_your_surname>
For Example:
If your team name is "gamma" and your name is Rohan Vaidya and you want to submit Task1.1. Then the file name should be
Task1.1#Gamma#Rohan_V.

File Submission:

❖ Each day there must be 2 separate jupyter notebooks for 2 separate topics.

❖ Upload jupyter notebooks on Google Classroom before deadline.

❖ The subject for the email should be your name along with your team name.

❖ Do not send any other extra file and image/screenshot.

… Happy Learning ! …
